

THE VISUAL INVESTOR: HOW TO SPOT MARKET TRENDS

Now in a book aimed at the huge and growing market of individual investors in stocks, bonds, and mutual funds, John introduces readers to the art and science of visual analysis. Clearly and simply he explains the principles of technical analysis in terms that nonprofessionals can understand and shows individual investors how to track the ups...

Peek Inside the Book

the yen upturn coincided exactly with the start of a topping process in global stocks. By first quarter 2008, the yen had risen to the highest level in three years against the U.S. dollar as global stocks tumbled. John J. Murphy, The Visual Investor: How to Spot Market Trends //

Reader's Opinions

I read several John Murphy's books. I think all of them are very good. This one is less interesting to me.
