

THE HUMAN TOUCH: OUR PART IN THE CREATION OF A UNIVERSE

What do we really know? What are we in relation to the world around us? Here, the acclaimed playwright and novelist takes on the great questions of his career--and of our lives. Humankind, scientists agree, is an insignificant speck in the impersonal vastness of the universe. But what would that universe be like if we were not here to say something about it? Would there be numbers if there were no one to count them? Would the universe even...

Reader's Opinions

The old chestnut, if a tree falls and no one's around does it make a sound? Apparently, of course it does, but not really because there is nobody to observe it or give it meaning. The Human Touch starts off as a great book, examining science and epistemology, then gets bogged down with language, where every stone is turned, even if totally...
